

평행사변형의 두 대각선은 서로 다른 것을
이등분한다.

(The diagonals of the parallelogram bisect each other.)

The diagonals of the parallelogram bisect each other.

The diagonals of the parallelogram bisect each other.

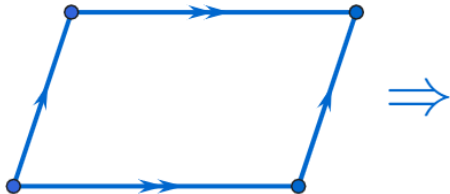

The diagonals of the parallelogram bisect each other.

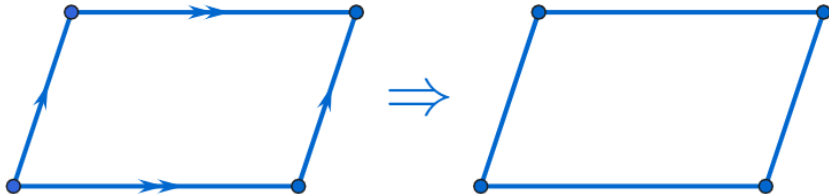

The diagonals of the parallelogram bisect each other.

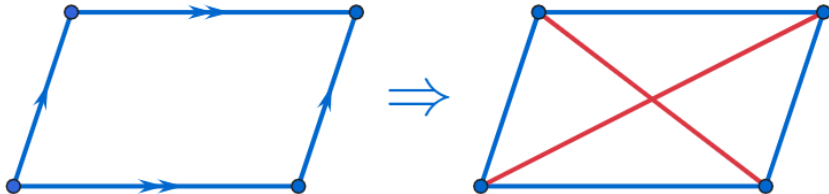

The diagonals of the parallelogram bisect each other.

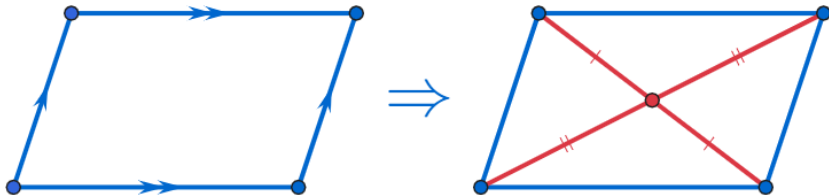

The diagonals of the parallelogram bisect each other.

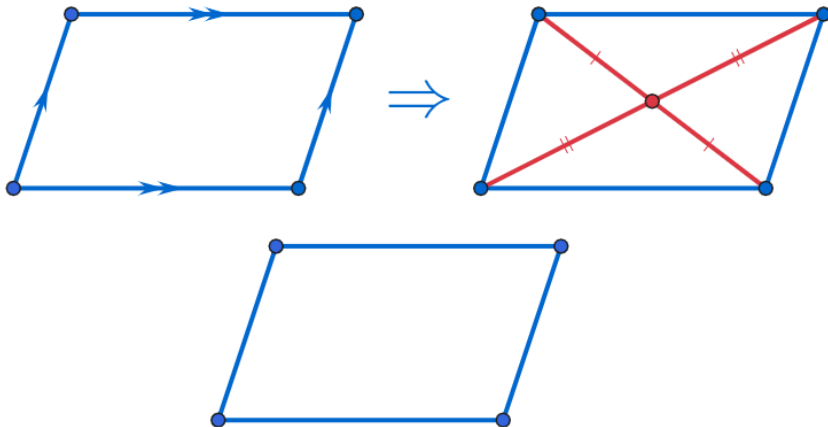

The diagonals of the parallelogram bisect each other.

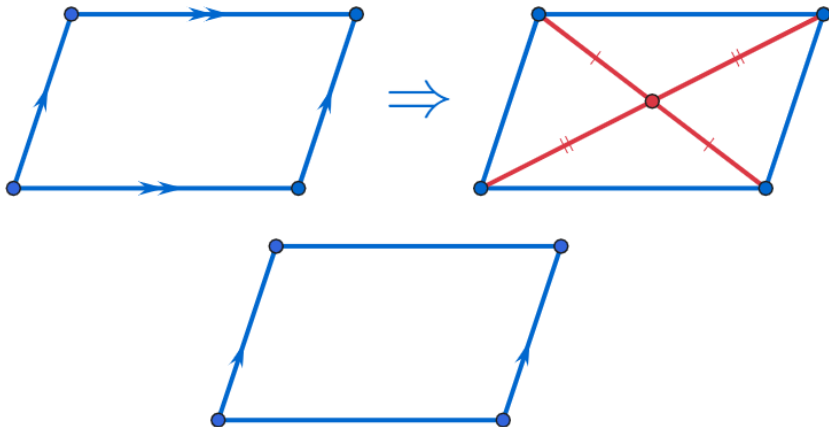

The diagonals of the parallelogram bisect each other.

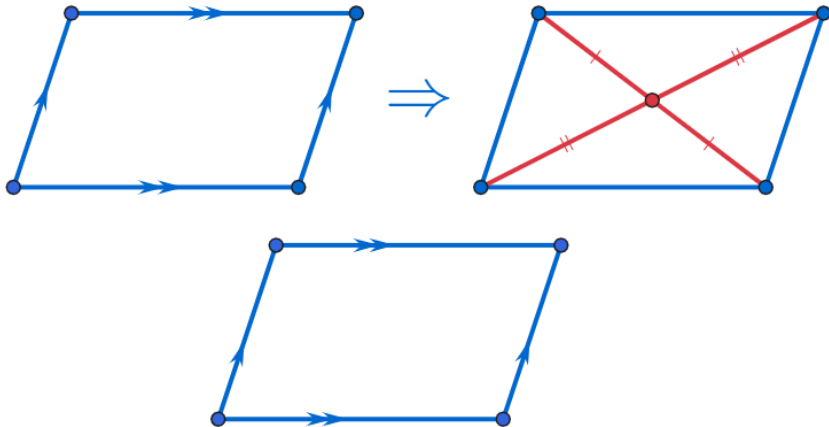

The diagonals of the parallelogram bisect each other.

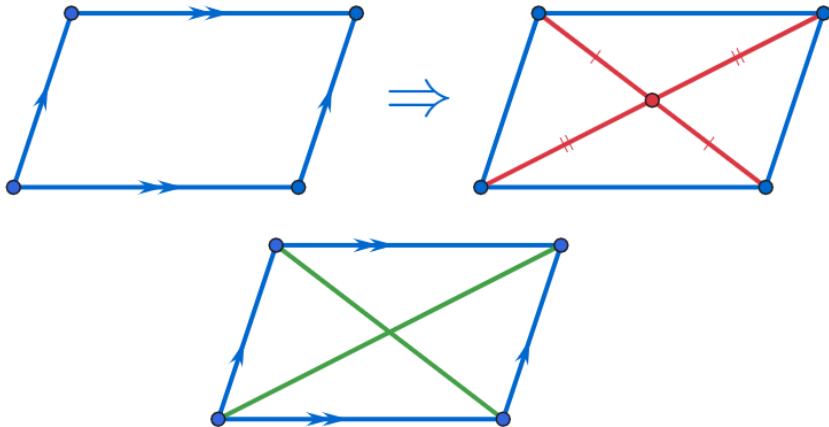

The diagonals of the parallelogram bisect each other.

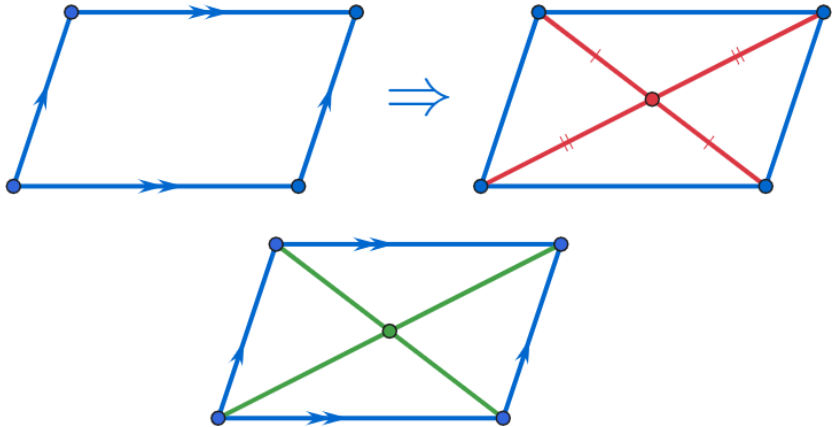

The diagonals of the parallelogram bisect each other.

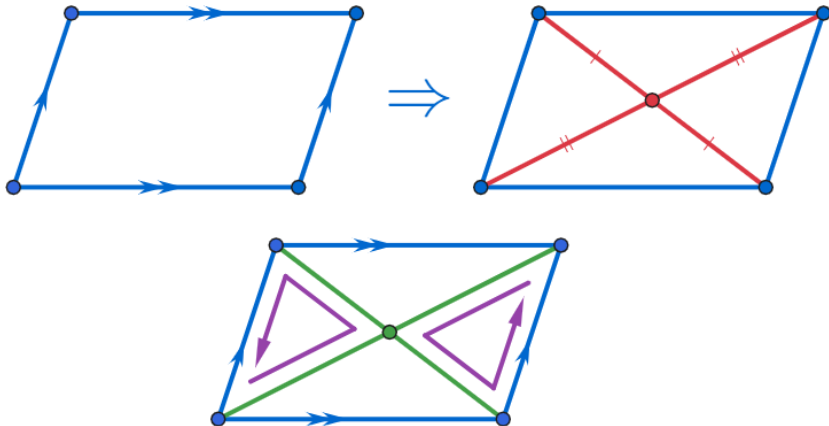

The diagonals of the parallelogram bisect each other.

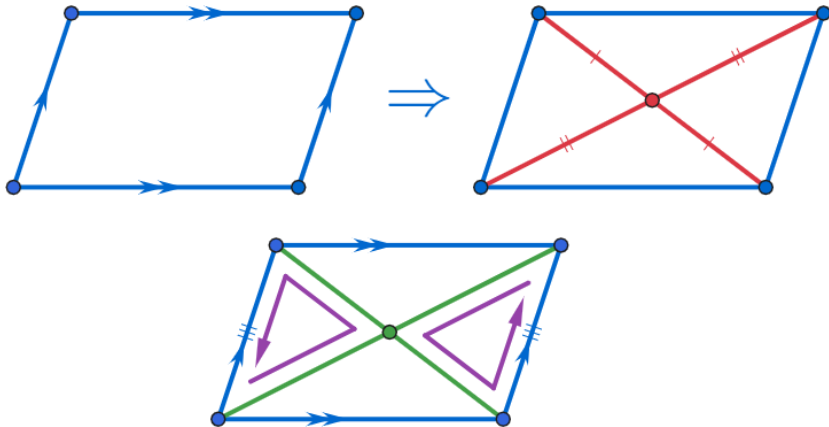

The diagonals of the parallelogram bisect each other.

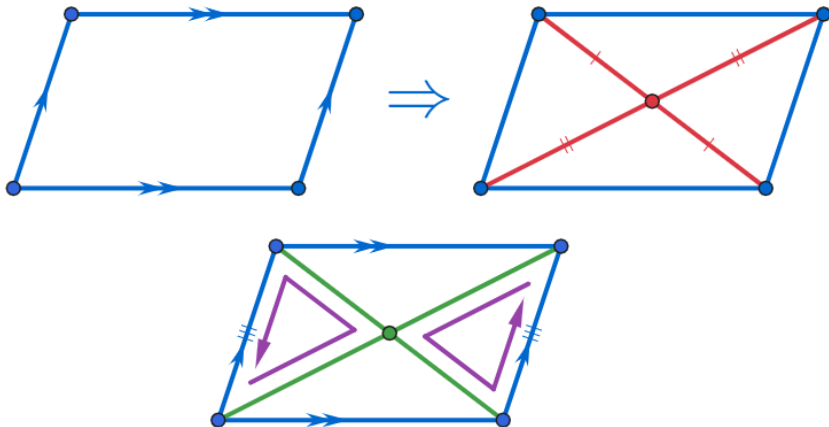

The diagonals of the parallelogram bisect each other.

The diagonals of the parallelogram bisect each other.

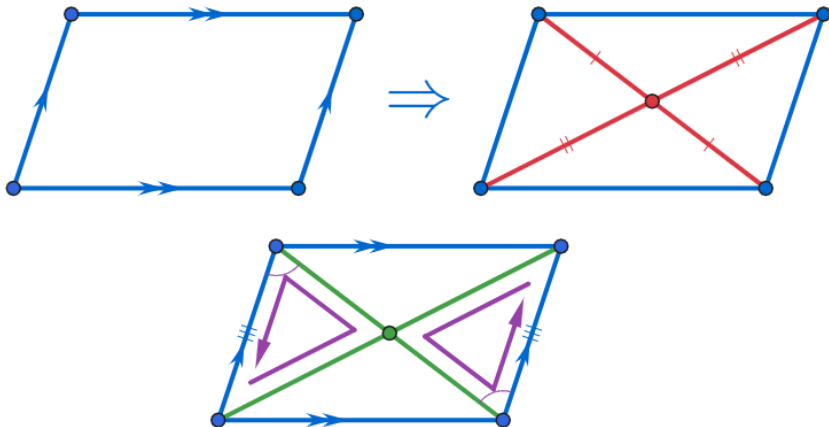

The diagonals of the parallelogram bisect each other.

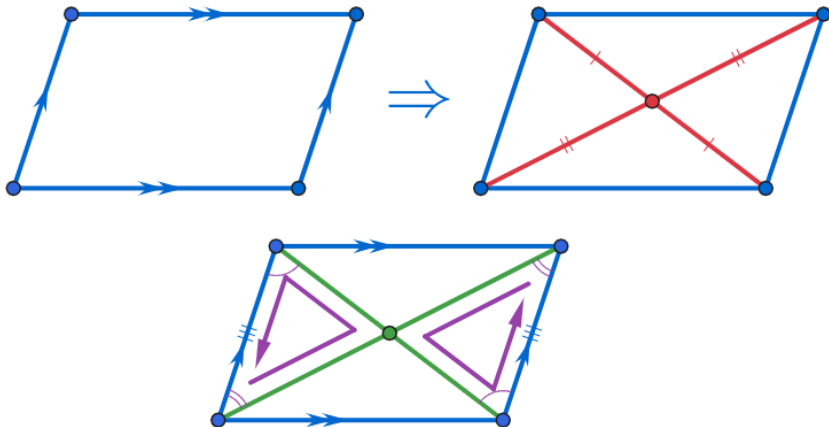

∴ 평행사변형의 두 쌍의 대변의 길이는 각각 같다.
(Two pairs of opposite sides of the parallelogram are equal in length.)

The diagonals of the parallelogram bisect each other.

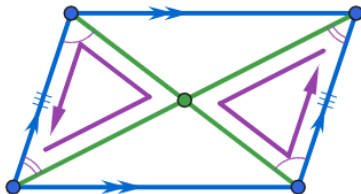

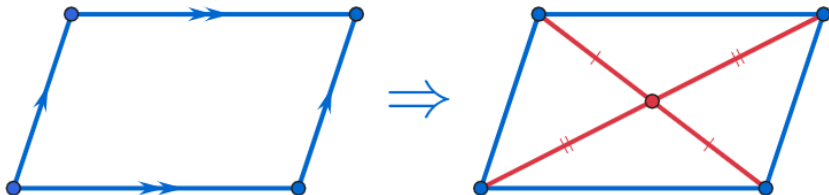

∴ 평행사변형의 두 쌍의 대변의 길이는 각각 같다.
(Two pairs of opposite sides of the parallelogram are equal in length.)

The diagonals of the parallelogram bisect each other.

∴ 평행사변형의 두 쌍의 대변의 길이는 각각 같다.
(Two pairs of opposite sides of the parallelogram are equal in length.)

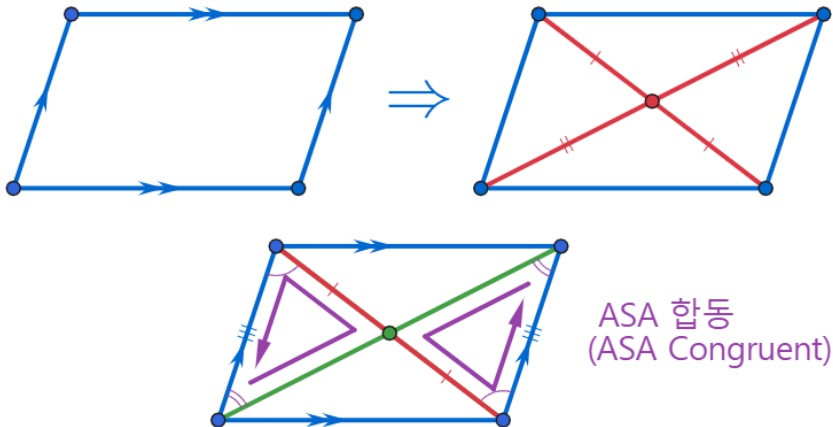

The diagonals of the parallelogram bisect each other.

ASA 합동
(ASA Congruent)

∴ 평행사변형의 두 쌍의 대변의 길이는 각각 같다.
(Two pairs of opposite sides of the parallelogram are equal in length.)

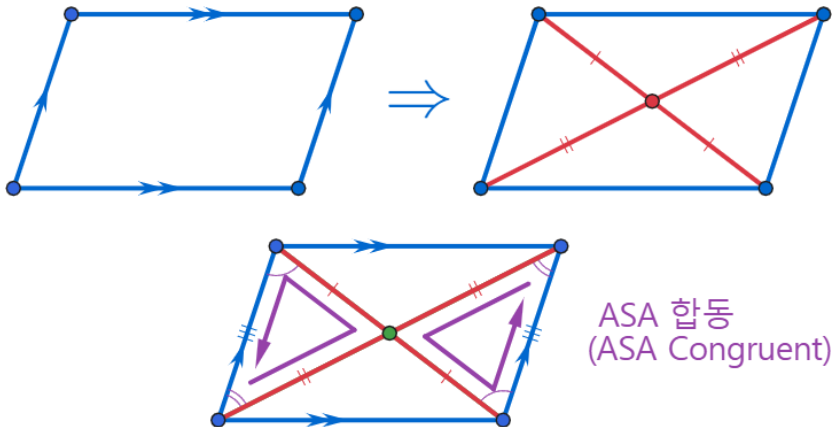

The diagonals of the parallelogram bisect each other.

ASA 합동
